TELEPHONE EXCHANGE CARRIERS OF ALASKA

ARCTIC SLOPE TELEPHONE ASSOCIATION COOPERATIVE
COMPANY SPECIFIC ACCESS SERVICES**14. Rates and Charges****14.1 Common Line Access Service****A. General Description**

Carrier Common Line Access provides for the use of ASTAC's common lines by customers for access to ASTAC's end users to furnish intrastate service.

Carrier Common Line Access is provided where the customer obtains ASTAC's switched access service.

Carrier and Area Specific Bulk Bill (CASBB) Carrier Common Line charges apply to all intrastate interexchange carriers (IXC) that furnish intrastate interexchange communications services within the State of Alaska. The IXC is required to pay the rates and charges specified herein for benefits and services provided by ASTAC, irrespective of the manner of connection. A charge shall be assessed upon all IXCs that interconnect with the local exchange common line facilities for the provision of intrastate MTS and MTS-like services.

For the purposes of this section, interexchange carrier (IXC) means any entity that uses local exchange common line facilities for the provision of intrastate telecommunications services. The charges shall not be assessed upon interexchange carriers to the extent that they resell intrastate Message Toll Service (MTS) or MTS-type services. An access customer that generates chargeable access minutes is considered an IXC.

Pursuant to:
U-08-145(1)

Effective: December 20, 2008

Issued: November 3, 2008
Issued By: Arctic Slope Telephone Association Cooperative, Inc.
By: David S. Fauske

TELEPHONE EXCHANGE CARRIERS OF ALASKA

ARCTIC SLOPE TELEPHONE ASSOCIATION COOPERATIVE
COMPANY SPECIFIC ACCESS SERVICES**14. Rates and Charges****14.1 Common Line Access Service (Cont'd)****B. Limitations**

1. A telephone number is not provided with Carrier Common Line Access.
2. Detail billing is not provided for Carrier Common Line Access.
3. Directory listings are not included in the rates and charges for Carrier Common Line Access.
4. Intercept arrangements are not included in the rates and charges for Carrier Common Line Access.

C. Undertaking of ASTAC

ASTAC will provide the use of ASTAC's common lines by an IXC for access to end users. CASBB rates and charges are set forth in following these rules and regulations.

D. Obligations of the Customer

1. Any switched access service associated with Carrier Common Line Access shall be ordered under other sections of this tariff.
2. The IXC facilities at the premises of the ordering IXC shall provide the necessary on-hook and off-hook supervision.
3. The charges for Carrier Common Line CASBB shall be determined as set forth in this tariff.
4. The customer must provide ASTAC with sufficient information to allocate accurate billing of both originating and terminating switched access charges, when applicable.

Pursuant to:
U-08-145(1)

Effective: December 20, 2008

Issued: November 3, 2008

COMPANY SPECIFIC ACCESS SERVICES

14. Rates and Charges

14.1 Common Line Access Service (Cont'd)

E. Rate Regulation

1. The Carrier Common Line Access Charge will be billed to each IXC under this tariff in accordance with the regulations set forth below.
2. ASTAC shall determine the total dollar amount of the CASBB revenue to be recovered from participating IXCs as follows:
 - a. The monthly CASBB will be determined by first multiplying ASTAC's monthly rate cap by ASTAC's revenue producing switched access lines and then subtracting monthly Network Access Fee (NAF) revenues. The number of revenue producing access lines shall be based either on the average of beginning of period and end of period number of lines for the month in which NAF revenues were derived, or based on such other line count method approved by the Commission that is reasonably synchronized with the billing period.
 - b. The portion of ASTAC's monthly bulk bill charged to an IXC shall be determined each month by multiplying ASTAC's monthly bulk bill by the IXC's proportionate market share for the month. "Proportionate market share" shall be based on each IXC's percentage of combined originating and terminating access minutes associated with interconnection with the facilities of ASTAC.

Pursuant to:
U-08-145(1)

Effective: December 20, 2008

Issued: November 3, 2008

14. Rates and Charges

14.1 Common Line Access Service (Cont'd)

E. Rate Regulation

- 2. ASTAC shall determine the total dollar amount of the CASBB revenue to be recovered from participating IXCs as follows:
 - c. The LEC that initially transmits an interexchange call for an end user, before transferring it to any other carrier, is the originating LEC. The originating LEC is entitled to collect originating switched access charges from the originating IXC.
 - d. The LEC that delivers an interexchange call to the end user that receives the call is the terminating LEC. The terminating LEC is entitled to receive terminating switched access charges from the terminating IXC.
 - e. The first IXC to transmit an interexchange call after it is transferred from the local exchange network is the originating IXC. The originating IXC must pay the originating switched access charges.
 - f. The last IXC to transmit an interexchange call before it is transferred to the local exchange network is the terminating IXC. The terminating IXC must pay the terminating switched access charges.
 - g. If an IXC is late in paying or refuses to pay its CASBB bill, the general penalty and late payment provisions of this tariff will apply.
 - h. Adjustments to switched access minutes of use and switched access lines can be made for up to 18 months.
