Other Suggestions: **Weather in Alaska is unpredictable!** Good rain gear is a must. Polar-tec pants beneath Neoprene waders, layered clothing, a waterproof wading jacket and wool/glacier gloves will insulate the angler from Alaska's unpredictable weather. Polarized sunglasses, Maxima tippet material, split shot and a camera with plenty of film are also useful.

Take advantage of McAfee's Fly Shop courtesy van service. Call (907) 344-1617 or FAX (907) 344-6665 for more information
