

PROFESSIONAL AFFILIATIONS

National Safety Council (NSC)

MAPTS is a fully accredited member of the National Safety Council. Courses in this catalog are sponsored through the Mining Division of the National Safety Council. Through professional membership on various boards and committees at the national level, MAPTS has access to NSC materials and information from all organized divisions of the American Conference of Governmental Industrial Hygienists (ACGI).

American Society of Safety Engineers (ASSE)

Administrative and instructional personnel are associated with the ASSE through professional membership.

North American Petroleum Trainers Association (NAPTA)

NAPTA is a consortium of agencies charged with professional training and development in the oil and gas industries. The consortium consists of PETEX, a division of the University of Texas at Austin; PITS, a public non-profit industry training association in Calgary, Alberta; and MAPTS in Alaska.

International Association of Petroleum Technology Schools and Colleges

IAPTSC was developed as a professional organization of institutions which offer courses, degrees, or certificates in Petroleum Technology. MAPTS subscribes to the standards of IAPTSC and maintains full membership.

Puerto Rico Manufacturers Association (PRMA)

Certified Mine Safety Professional (CMSPP)
